EDUCATION

Bsc Physical Science ICT

UNIVERSITY OF SRI JAYEWARDENEPURA

- Department : Computer Science
- Current year : 3rd year
- Expected graduation year : 2027

CERTIFICATIONS

- Certified Ethical Hacker (CEH) v13– Training Completed
  EC-Council – SYSCARE IT Solutions | May 2026
- Certified Ethical Hacker – Cisco Networking Academy
- Certification for Python - UOM

LANGUAGES

- Sinhala (Fluent)
- English

PROFILE

I am an undergraduate pursuing a BSc degree in Physical Science with a focus on ICT and Mathematics. I have a strong interest in Cyber Security and practical experience with tools such as Kali Linux, Nmap, Wireshark, Burp Suite, and OWASP security testing. I am currently seeking a Cyber Security internship where I can apply my technical knowledge, gain industry experience, and continue developing my practical security skills.

TECHNICAL SKILLS

- **Programming Languages**
  - Python , Java , C++ , SQL
- **Cyber Security Tools**
  - Wireshark , BurpSuite , Nmap , Nessus , OWASP
- **Operating Systems**
  - Windows , Kali Linux
- **Other Technologies**
  - Arduino , Android Studio

ACADEMIC PROJECTS

- **Enterprise Password Audit and Security Assessment | Cybersecurity**
  - Conducted password hash auditing using John the Ripper in a controlled lab environment.
  - Evaluated password strength and identified weak credentials.
  - Documented findings and security recommendations.
- **Web Application Vulnerability Assessment System | Python, Flask, SQLite, Pytest**
  - Developed a Flask-based application to manage web security assessments and scan history.
  - Implemented URL validation, passive security checks, and risk-based vulnerability classification.
  - Integrated SQLite database storage and PDF report generation using ReportLab.
  - Tested application functionality and error handling using pytest.
- **HackBench – Browser-Based Security Toolkit | JavaScript, Vercel**
  - Built a client-side toolkit for password analysis, encoding, hashing, and JWT inspection.
  - Applied secure input handling to prevent injection and added an OWASP Top 10 reference.
  - Deployed live on Vercel with documentation on GitHub.
- **GitHub Projects**
  - Authorization BypassTesting -Burp Suite
  - FTP Traffic Analysis using Wireshark
  - Nmap port scan

EXTRA-CURRICULAR ACTIVITIES

- Secretary of AlgoAreana project -Leo club
- Web Desinger of Synchro 2.0 project - Leo club
- Flyer Designer Leo Club
- Member, Computer Science Society
- Participant,CyberSecurity Workshops and Seminars
